

JOHANS BORMAN FINE ART (CONTEMPORARY)

Johans Borman Fine Art specialises in promoting artworks by African Modern Masters and selected contemporary African artists. A gallerist since 1989, Johans Borman established the Cape Town-based gallery in 1999, and has been presenting curated exhibitions which juxtapose the Modern Masters with their contemporary counterparts, as well as solo exhibitions for emerging African artists.

The gallery maintains a selective exhibitions programme, curating an average of six catalogued exhibitions per year. The contemporary artists represented by JBFA are encouraged to work towards solo exhibitions and to participate in the curated themed group exhibitions.
